Objectif

A highly organized professional with strong expertise in React and Next.js, I am seeking a full-time position as a Software Developer. I adapt seamlessly to new work environments thanks to strong teamwork skills, excellent listening abilities, and effective communication.

Expérience Professionnelle

- **Freelance** 02/2021 - 04/2023
Front-End Developer - CDI
 - Optimization of existing code to improve the performance of developed web applications
 - Configuration of website or application hosting infrastructure, considering accessibility, cost, and availability
 - Design of all technical and functional back-end and front-end aspects of web services
 - Use of frameworks such as React and Next.js to simplify the creation of complex applications
 - Design and implementation of web services and RESTful APIs using Node.js and Express
 - Implementation of secure authentication systems (OAuth, JWT)
 - Use of Docker for creating and managing development and production environments
- **Upwork** 06/2023 - Actuel
Full-Stack Dev
 - Development of responsive and intuitive user interfaces using HTML, CSS, and JavaScript
 - Integration of design mockups from design teams while adhering to accessibility standards
 - Migration of a monolithic application to a microservices architecture, improving scalability and maintainability of the project
